OBJECTIVE

Motivated second-year BSc Data Science student at Queen's University with hands-on experience in Python, Java, MySQL, and machine learning fundamentals.

Alongside technical skills, I have devised strong teamwork and communication skills through part-time work in a fast-paced environment. I am seeking a placement opportunity to leverage my technical and interpersonal skills in a data-driven role while continuing to grow in data science and programming.

EDUCATION

DATE

Queen's University Belfast

2023 – Present:

BSc Data Science including Professional Experience

Level 2 Modules (In Progress)

- Data Structures and Algorithms in C++ (TBC)
- Introduction to Artificial Intelligence and Machine Learning (TBC)
- Linear Algebra (TBC)
- Professional and Transferrable Skills (TBC)
- Statistical Inference (TBC)
- Theory of Computation (TBC)

Level 1 Modules (Completed)

- Procedural Programming in Java (87%)
- Databases in MySQL (66%)
- Object-Orientated Programming in Java (75%)
- Introduction to Statistics and Probability (66%)
- Introduction to Linear Algebra and Analysis (69%)

A-Levels

2023:

Mathematics (A*), Further Mathematics (A), Computer Science (A), Chemistry (B).

GCSE

2021:

10 GCSEs, including Mathematics (A*), Digital Technology Programming (A) and Further Mathematics(A*).

TECHNICAL SKILLS

Programming Language:

- Python
- Java
- C++
- SQL (Databases)

Data Libraries/Frameworks:

- MySQL
- Pandas
- NumPy
- TensorFlow
- Matplotlib/Seaborn
- Scikit-learn

Machine Learning and AI:

- Scikit-learn
- TensorFlow/Keras
- TensorFlow Hub
- Kaggle Datasets

Development

Environments:

- Jupyter Notebooks
- Visual Studio Code
- Anaconda
- Google Colab
- phpMyAdmin

Volunteering:

- Oasis Youth Centre

EXPERIENCE	DATE
Portadown, Northern Ireland Retail Worker, China Treasure House - Managed customer orders and ensured timely service in a fast-paced environment, improving communication skills and attention to detail. - Collaborated with team members to maintain smooth operations, improving teamwork and time management skills. - Handled cash and processed payments accurately, exhibiting strong numerical skills and trustworthiness. - Developed problem-solving skills by addressing customer inquiries and resolving issues efficiently. - Adapted to changing workflows and peak business hours, demonstrating flexibility and the ability to work under pressure.	Aug 2021 – Present:
Virtual Work Experience Dive into Data, AI and beyond Kainos (Online) - Gained exposure to AI applications in the industry, enhancing my understanding of cutting-edge data science technologies. - Learned about the data lifecycle and AI integration in business decision-making. - Participated in discussions on AI ethics, expanding my awareness of responsible data usage.	Oct 2022 (1 day)
PROJECTS	
Level 1 – Databases - Designed and accomplished a MySQL database to manage placement records for a work experience centre, organizing student placements and employer opportunities. - Constructed complex SQL queries for data retrieval and analysis, displaying proficiency in database management. - Progressed the database from 0 Normal Form to 3rd Normal Form to ensure data integrity and eliminate redundancy.	
Level 1 – Object-Orientated Programming - Given the task to create a storing and retrieving based application for QUB Images using Java. - Implementing core Object-Orientated Programming principles such as inheritance, polymorphism and encapsulation.	
Personal Project – Oasis Youth Centre Website - Led the design and development of a fully responsive website for a volunteering youth centre using Wix, boosting the centre's digital presence and increasing accessibility for volunteers and the community. - Created and fulfilled a customized volunteer registration form, allowing users to easily sign up for volunteering opportunities directly on the website, improving user engagement and volunteer tracking.

ACHIEVEMENTS
Awards/Certifications: - Duke of Edinburgh Gold (TBC) Complete A.I. & Machine Learning, Data Science Bootcamp (Udemy, 2024) - OCN Youth Work Level 1 (2022) - British Sign Language Level 1 (2023) - UKMT Intermediate Mathematics Challenge (2021) - UKMT Senior Mathematics Challenge (2022) - Harvard's CS50 Puzzle Day (2023) - The William Hamilton Data Science Prize (2024)
Soft Skills: - Teamwork and Collaboration - Communication - Problem Solving - Adaptability - Leadership - Willingness to Learn
Interests: - LeetCode - GitHub - QUB Badminton Society - Machine Learning - Computer Hardware - Travelling
Additional Information: - Full UK driving License - English (Fluent) - Mandarin (Conversational) - Japanese (Beginner)
